[Intoro]

We can live in peace till the end of time
Planet earth is yours, planet earth is mine
We can live in peace, it's a state of mind
If we live as one I believe

Chorus:

1234 We can change the world !

Our world is your world and
This World is our world
Your world is my world and
This world is for everyone

Verse#1:

There are forests standing high
Mighty mountains and blue skies
Miles and miles of corn in fields of gold
So fine, so fine

Seems we're running out of time
And it's all by our design
With your hand in mine, let's take a stand
It's our chance- can't you see

Pre-chorus:

That it starts with you
And it starts with me
Like a pebble tossed in a stream

Watch it grow and grow
To a mighty wave
Till it's more than a dream

Chorus:

1234, we can change the world

Our World is Your World and
Your World is our world
Your world is my world and
This world is for everyone

Come with me, make the world better
We can do it- by sticking together

RAP

So take your voice and raise it up
And we'll get people waking up
Can't win the world, if you give up now
They say game over, I keep helping out
Not gonna spiral down down down
Cuz you and me, we can turn it round round round
I know we got Earth in a moment of darkness,
But one two step at a time and we got this

Verse #2

There are creatures great and small
Waves of people stopped by walls
Babies born without a crust of bread
Cry at night- can't you see?

Pre-chorus:

That it's starts with you
And it starts with me
Like a pebble tossed in a stream
Watch it grow and grow
To a mighty wave
Till our victory's more than a dream
それはあなたから始まるということ
そして、それは私から始まります
小川に投げ込まれた小石のように
それが成長し成長するのを見てください
強大な波に
私たちの勝利が夢以上のものになるまで

Chorus:

1234, we can save the world

Our world is Your World and
This world is our world
Your world is my world and

This world is for everyone

Come with me, make the world better
We can do it by sticking together

Bridge:

Reach down deep in your heart
The answer is living inside you
As long as this planet keeps spinning
I know one thing that is true

Chorus:

Our world is Your World and
Your world is our world
Your world is my world and
This world is for everyone

Our world is Your World and
Your world is our world
Your world is my world and
This world is for everyone

RAP

Oh ----- !

One world, it's the one we have
Say you'll help to make it last
It's green, but not for long
Don't you want to pass it on
This place, can't imagine what it's worth
No way that I leave it looking worse
You share it with me, I share it with you
Why don't we think about what we can do
Keep this in your mind

Cuz tomorrow's on the line It's for the ocean and the sky
Yeah yeah, the young ones, you and I
Every day we can do a little bit for nature
Add it all up, and I know that we can save her
From the beaches to the glaciers
Why not now, instead of later?
